

## RRCAT Visit

PIEMR Students Group from Electronics and Communication Engineering and Electrical Engineering branch visited virtually Raja Ramanna Center for Advance Technology -RRCAT Indore, on the occasion of National Science Day on 28/2/2021. Visit started with the introduction of organization by Director, RRCAT. Individual department of RRCAT demonstrate working and research performed by them. Students learnt about working technology of different types of LASER and their applications. Demonstration of Research equipment developed by RRCAT scientist, open up a new vision of learning among students. Virtual visit of Indus-1 and Indus-2 gave an idea about huge structure of experiments setup. Experiments based on cryogenic concepts add an entirely new dimension of learning. At last questionnaire session solve all the doubt of students.
